

SIZING

Please be as accurate as possible with sizing. For instance, size 7 girls is not the same as size 7 juniors, which is a much larger teen size. The same goes for our larger middle schoolers. Our bigger girls may need a size 14 misses, and not a size 14 girls. For our bigger boys beyond the usual size 6-16 boys, please provide waist and length, such as 30 X 32. For shoes, be as accurate as possible. Be aware that a size 4 girls shoe is equal to about a size 5 1/2 ladies, so be careful about those girls sizes right on the edge of ladies sizes.
