

Host and Youth Contract during COVID-19

Until it is safe to do differently (please initial):

- _____ I will maintain social distancing inside and outside of the home.
- _____ If possible, I will limit my time outside of the home.
- _____ If I leave the house, I will wear a mask, use hand sanitizer, and maintain social distancing.
- _____ If I leave the house, and am spending time with others, I will plan to meet in outside spaces where social distancing can be maintained.
- _____ If I am in a situation where I am not able to maintain social distancing, for whatever reason, and have been in a situation with a higher risk of exposure, I will self-isolate in the host home for at least 14 days.
- _____ If I begin feeling sick, I will let THRIVE! staff know ASAP.
- _____ If I begin feeling sick, I will immediately start self-isolating for at least 14 days.
- _____ (For youth only) If the host requests it, I will refrain from seeking outside employment. If I cannot and need to return to work, I will work with the THRIVE! staff to find alternative housing.
- _____ Prior to move-in, I am willing to get tested for COVID. Funds can be partially/fully covered by SHIP.
- _____ Upon move-in, I will self-isolate for at least 14 days, if possible. When it is not possible, I will wear a mask, wash hands, sanitize all areas, and maintain social distancing.

If mutual contract is being violated by either party, the youth will be removed from the home. SHIP has limited funding to provide a hotel room for a short period of time. For youth 18 years and over, those funds will be used in cases where matches do not work out. For minors, other arrangements will be made.
